Another Grinding Train safely delivered!

The contract between Client and receiver required the cargo to be shipped directly from loading to receiving ports since there is no direct connection from the Med area into Kobe, Japan. Baggio offered Client to ship from Rotterdam, NL. Cargo was delivered to Rotterdam port by means of special trailers Wagons and accessories were unloaded and stowed on Flat Racks, lashed and secured, Flat Racks were later barged to on-loading ONE Terminal to meet departure.
