

## Offshore Transportation of 6 Oversized Reels for Zohr Project

Customer: **Saipem**

Period: **2017**

Transported Volume **6 x 200 Ton Reels**

Cargo Unit Weight **200 Ton**

Port of Loading **Moss, Norway**

Place of Destination **Offshore Point in Egypt (Alongside FDS2 Installation Vessel)**

Geographical Area **europa, africa**

Sectors **Oil & Gas**

Services **Special Projects, Offshore**

Zohr Gas field is located within 3.752 m<sup>2</sup> Shorouk Block, within the Egyptian Exclusive Economic Zone, in the Mediterranean Sea. The field is situated more than 100km from the coast.

Baggio's job consisted in loading the 6 oversized reels in Norway and transporting them to a specific offshore location, alongside our Customer's installation vessel (Saipem FDS).

Our cargo ship waited for 30 days offshore and thereafter the empty reels were offloaded to her - for redelivery at the loading port (Moss, Norway).

This job combined our Forwarding and Offshore capabilities.
